D. Welcome Address

An alumni association is an association of graduates or, more broadly, of former students (alumni). In the fraternities, and sororities often form groups with alumni from the same organization. These associations often organise social events, publish newsletters or magazines, and raise funds for the organisation. Many provide a variety of benefits and services that help alumni maintain connections to their educational institution and fellow graduates, most associations do not require its members to be an alumnus of a university to enjoy membership and privileges.

Additionally, such groups often support new alumni, and provide a forum to form new friendships and business relationships with people of similar background.

Alumni associations are mainly organised around universities or departments of universities, but may also be organised among students that studied in a certain country. In the past, they were often considered to be the universities

In membership of an alumni association often goes without saying alumni associations are getting more and more popular as universities receive less money from governments and depend more on networking within civil society for funding.
